## ASTRO SOUL® EXPLORING THE FIFTH DIMENSION

Astro Soul is the exploration into the fifth dimension and the unconscious mind. In Astro Soul programs you move from the dimension of space time to light time, traveling as a free agent at the speed of light. Without eyes you can see, without ears you can hear and without a physical body you can feel! You will realize that life on Planet Earth is but a blink of the eye in the time span of eternity.

Experience a greater dimension of the laws of the universe without being influenced by dogma, theology or religion. Astro Soul is experiencing Planet Earth as a great soul where souls come together with different states of consciousness to learn, grow and find spiritual fulfillment.

In Astro Soul you will:

- Realize there is no death and release the fear of the unknown
- Understand and experience the reality of reincarnation and your continual process of soul evolution
- Learn to heal yourself and also assist souls that have passed on in confusion through advanced healing and

cleansing techniques

- Expand your connection with the Higher Spirit through deeper and deeper levels and techniques of communication with your team of Master Souls
- Come to know true Spiritual Freedom as you Astro Travel to the Source and through the depths of your Universe
- Advance in your abilities to be a master of your personal energy and navigating the energies around you
